ENGLAND'S THREAT.

To Take Vigorous Action Unless Turkey Yields.

London, May 8.—A despatch from Constantinople to a news agency states that the ultimatum sent by Great Britain to the Porte regarding the occupation of certain points in the Sinai peninsula by Turkish troops, which the Porte had refused to accept, would be taken unless satisfaction should be given before the expiration of ten days. The Turkish cabinet will meet today.

Bribery on Bacon Bill.

Boston, May 8.—Representative Sigsbee of Vermont and Edward of South Boston and Timothy A. Barter, a legislative agent, called upon District Attorney Moran yesterday as a result of the investigation of bribery charges against members of the legislature, in connection with the defeat of the anti-buckshot bill in the House of Representatives.

SPRING CATARRH

Rickert & Wells Sell Hyomei Under Guarantee of Cure.

The changeable weather of spring is directly responsible for the prevalence of catarrhal troubles in Barre at the present time.

As a result, Rickert & Wells have had a larger sale for Hyomei the past week than ever before in the years that they have handled this reliable treatment for the cure of catarrh.

Unlike the ordinary remedies that have been used in catarrhal troubles, there is no stomach dosing with Hyomei. It is breathed through a neat pocket inhaler that comes with every outfit, and its balsamic, antiseptic healing penetrates to the most remote cells of the nose, throat and lungs, killing all catarrhal germs, healing the irritated mucous membrane, and effecting a complete and permanent cure.

If there is a single catarrhal germ in the system, Hyomei will search it out and absolutely destroy it, completely eradicating the trouble. The remedy has made so many cures among their customers that they offer to pay for it themselves if it does not benefit even the worst case of catarrh.

The complete outfit costs only \$1, consisting of an inhaler, medicine dropper, and bottle of Hyomei, while extra bottles of Hyomei can be obtained for 20 cents. There will not be even this small expense if Hyomei does not cure, as they will return your money.

NEW RATE BILL WAR

President Antagonizes Republicans and Democrats

IN ALLISON AMENDMENT

Denounced for Treachery—All Hope of Democratic Alliance With Radical Republicans for Limited Court Review Ended.

Washington, May 8.—Senator Allison, who has been confined to his home by illness, yesterday afternoon arose from his sickbed and drove to the Capitol to introduce his amendment to the rate bill, which has been accepted by the President.

The effect of the so-called Allison amendment was everywhere discussed yesterday, both among senators and representatives. Radical Republicans and Democrats vigorously assailed the President of what they called a surrender of his position. Senator Duffell and some of the other radical Republicans, who heretofore have supposed that they were fighting for the administration plan and negotiating for Democratic support, were angered because the President, by endorsing the new amendment, had broken off all hope of Democratic alliance with radical Republicans to pass a limited review amendment.

"To desert is bad enough," declared one Democratic senator, "but to shoot your comrades as you desert is the height of infamy."

Senator Bailey will lead the Democrats in debating the amendment, and will show, it is said, that the President was negotiating with Democrats through radical senators to support a radical proposition when he assented to the compromise.

Senator Cullum predicted that the Allison bill would be adopted.

Conservative Republican senators continue to maintain that the amendment meets their demands as to court review, but most of the friends of the original Hepburn bill hold it will not essentially modify that measure.

A feature of rate proceeding this week will be an effort to have express companies specifically included in the bill as subject to government regulation. Senator La Follette will lead this movement with strong Democratic support.

When consideration of the bill was

resumed Senator Kittredge's amendment including the owners of all private cars within the definition of carriers was first in order. Mr. Chapp opposed the provision as impracticable at this time. He said that as it stands the bill makes the railroad companies responsible for these cars, whether owned by them or not, and expressed the opinion that the provision would prove effective. Furthermore, he was of opinion that the adoption of the Kittredge amendment would have the effect of legalizing the private car line, and thus render further legislation on the question difficult.

Senator Tillman gave it as his opinion that as the bill stands it would be necessary to deal with only one company, that it would be advisable to adopt the amendment and thus compel dealing with two companies.

The amendment was voted down without division.

The next amendment presented was that suggested by Mr. Foraker prohibiting rebates, drawbacks and special rates as a discrimination, and at Mr. Beveridge's suggestion the author of the provision agreed to include passes in the prohibition.

Mr. McCumber objected to the amendment as calculated to stand in the way of the transportation of laborers into the Northwest in the harvest season at greatly reduced rates, saying that such action would be most disastrous.

Mr. Butler suggested that the objection could be met by supplying, as is generally done in such cases, a different class of accommodations for laborers engaged in such circumstances as those outlined by Mr. McCumber.

Mr. Gallinger offered an amendment permitting reduced rates to be given to laborers, agricultural or otherwise, en route to fields of labor.

WILLIAMS CONTINUES FILIBUSTER

He Persists in Blocking Business Until Statehood Is Taken Up.

Washington, May 8.—Immediately after the opening of the House the leader of the minority promptly began a filibuster with the statehood bill as the objective to be reached. Mr. Williams of Mississippi asked for years and nay on the approval of the Journal. Not a sufficient number arising, the speaker

declared the Journal approved on the regular motion.

Mr. Sherman of New York, chairman of the Indian affairs committee, moved that the rules be suspended, that the Indian appropriation bill be taken from the speaker's table and sent to conference.

To this Mr. Williams demanded a second. Mr. Sherman then asked unanimous consent that a second be considered as ordered. Again Mr. Williams made his protest manifest, and tellers were necessary to order the second.

The rules were suspended and the motion adopted. The following conferees were then appointed on the Indian appropriation bill: Sherman of New York, Curtis of Kansas and Stephens of Texas.

Mr. Hepburn of Iowa presented an order giving to the pure food bill, the bill to restrict immigration and the bill providing a code of penal laws for the United States, the same right as appropriation bills and making the code bill a special continuing order for consideration at every session of the House whenever the House shall by vote take a recess from the usual hour of adjournment until 5 p. m., the evening sessions not to continue after 10:30 p. m.

The Hepburn order giving the bills the right of way in the House was adopted, 187 to 44.

TO SAVE NIAGARA FALLS.

President Sends to Congress Report of the Commission.

Washington, May 8.—President Roosevelt yesterday sent to Congress the report of the international waterways commission on the preservation of Niagara Falls. The report contains recommendations for the restriction of the amount of water to be diverted for power purposes, and suggests that the amount of water to be diverted be limited either by treaty or legislation.

The limitation is placed at 36,000 cubic feet per second from the Canadian side and 18,500 cubic feet per second from the American side, in addition to 10,000 cubic feet per second authorized for the Chicago drainage canal.

CURSED PASTOR.

Chicago Clergyman Shouted at a Church by Angry Woman.

Chicago, Ill., May 8.—A large audience of Methodists, who had gathered for the opening of the House the leader of the minority promptly began a filibuster with the statehood bill as the objective to be reached. Mr. Williams of Mississippi asked for years and nay on the approval of the Journal. Not a sufficient number arising, the speaker

The woman's name was not learned, but it is believed that it is a female. Dr. Quigley's sermon had consisted chiefly of a scathing arraignment of certain ideas which, in some quarters, has taken possession of the public mind, and a warning to his congregation to be on their guard against them. Among other things, the pastor assailed the principle of the open shop, and the manner for consulting spirit mediums and palmists.

DEAD WITH WILL IN HAND.

Mystery Surrounds Death of Young Man Who Was Apparently Drugged.

Asbury Park, N. J., May 8.—Mystery surrounds the death here of Edward Mason, twenty-two years old, who came into his mother's home in West Asbury Park Sunday night apparently in a dazed condition.

He went into a bedroom, closed the door, and after a few minutes was heard to utter a cry of distress. When members of the household later peered into the room, Mason was discovered dead on the bed.

In his hands was a policy for \$1,000 in the Improved Order of Foresters and an unsigned bill disposing of the money. It is not known if he committed suicide or was poisoned by someone.

TO CLOSE UP WAR BOND ISSUE.

Head of the Bank of Japan Is in This Country.

Chicago, May 8.—Yojiro Ono, president of the Bank of Japan, which floated the war bond issue, arrived in Chicago Sunday, accompanied by several other bankers, to close up the business of the bond issue in the United States. He has been in this country, where he was engaged in banking business, which only can be done by an official of the Japanese National Bank. President Ono is a graduate of the University of Michigan.

SPECIAL JURY FOR JEROME.

To Take Up Political Campaign Contributions.

New York, May 8.—The special grand jury which is to investigate the insurance matters, and especially political campaign contributions, was empaneled yesterday. District Attorney Jerome, who asked for this jury, was present with several of his assistants when it was sworn. Justice Scott of the criminal branch of the supreme court, presided.

GOOSE-EGGS

FOR COLLINS

Athletics Downed Him Yesterday, 4 to 0

WADDELL WAS THE STAR

The Champions Bunched Their Hits Off Winter and Had a Comparatively Easy Time Through-out.

Boston, May 8.—Waddell's pitching was too much for the home team yesterday afternoon, and Philadelphia won, even scoring a shutout by the score of 4 to 0. Waddell allowed but six scattered hits and struck out eight men. The eight hits of Winter were at the right time.

The Athletics scored the first quarter of their total in the first inning. With two down, Winter walked Armbruster. Davis hit so hard at Grisham that Grisham was knocked over. Davis captured the sphere and threw to Collins to catch Armbruster, who was going to third. Collins failed to hold the throw and the tally came in. Seybold fanned. Collins got as far as third base in the third. After he had singled to left and Stahl had put a safe one over, Collins hit to Cross, who headed off Stahl at second, allowing Collins to reach third. Parent took the second base, but Freeman wasn't equal to the opportunity and struck out.

On Davis' single and Seybold's long three-bagger to right field the visitors scored another in the fourth inning. Collins kicked over the three-bagger, claiming it was a foul. In the fifth Waddell walked and Harstel bunted safe. After Brothers had fanned Armbruster singled over second and Waddell went in with the third tally. The final run by the visitors came in the sixth inning on Murphy's hit to right field for three bases and Schreck's single to left. Boston never was really in the game.

Yesterday's American League Scores.

At Boston—Philadelphia 4, Boston 0.

At New York—New York 7, Washington 2.

At Chicago—St. Louis 10, Chicago 0.

At Cleveland—Detroit 8, Cleveland 3.

New York	9	9	.500

A FEW WORDS

ABOUT TONICS

Their Value Discussed—When to Take a Tonic—The Kind to Take and What to Avoid.

The word "tonic" covers a multitude of sins. People in all walks of life take tonics, and these tonics range from whiskey straight down to iron pills. Those who take their whiskey straight are to be commended for one thing, namely, their frankness. They cheerfully admit that they take alcoholic beverages and do not masquerade behind the innumerable patent medicines which while the country is flooded and which are called tonics. The "nerve tonic," "blood purifier," and "nerve invigorator" contain from 12 to 60 per cent alcohol, so that while these medicines (3) seem to make you feel better for the time being, this is caused entirely by the temporary stimulation of the alcohol. The reaction of such delusions leaves the system weaker than ever, and if it is persisted in, a complete breakdown is bound to follow.

A true tonic builds up the tissues, enriches the blood and improves circulation. In Mages' (Malt) Emission we have a remedy which contains flesh-building and strengthening materials in a highly concentrated form, without a drop of alcohol. No temporary artificial stimulation follows its use, but a steady and constant invigorating influence is felt from the first day.

When you consider that Mages' (Malt) Emission contains the purest cod liver oil, in combination with syrup, dextrose, non-alcoholic malt, to which is added hypophosphites of lime and soda, you must realize that as a muscle-builder and nerve-strengthening it would be impossible to devise a remedy of greater value.

Remember, not a drop of alcohol enters into Mages' (Malt) Emission. It is alcohol and food alone. This superior remedy may be obtained of E. A. Brown, Druggist, 38 North Main street, Barre.

Cincinnati	9	16	.360
Brooklyn	6	16	.272

FEED AND FLOG.

By 1,000 Strokes Every Other Day Killer of Girls Is Punished.

New York, May 8.—A special cable from Tangier, Morocco, says:

The Sultan has prohibited the crucifixion of Mohammed Mesfawi, the shoemaker of Marrakesh and wholesale murderer, and Viceroy Muley Hafid has contrived a characteristically cruel and Oriental punishment.

Mesfawi has been condemned to a flogging in the market place, where he is to receive 1,000 strokes every other day, but the shoemaker is to be luxuriously fed in order to keep up his condition, and so prolong his torture. The viceroy is awaiting the Sultan's decree of execution, which will undoubtedly be implemented or quartering and burning alive. The populace of Marrakesh is also impatiently awaiting the Sultan's decree, and the authorities fear that if not received soon the alternate daily floggings will cease to interest the populace, who will attack the prison and lynch Mesfawi.

The passions of the populace are increased daily by the discoveries of additional leading bodies of girls. It is now expected that Mesfawi's victims will total 60.

MOUNT WASHINGTON SOLD.

May Form Nucleus of Public Forest Reserve.

Lancaster, N. H., May 8.—A property transfer which may have a bearing on the setting apart of the White Mountains as a forest preserve was reported in the county court house yesterday, when the sale of 70,000 acres of timber land, including Mount Washington, was entered upon the official books of the county. The grantor is Robert Osmond and the purchaser the Garland, Cobb & Stahl company, which was formed for the purpose of buying in the property. The company includes E. O. Garland of Whitefield, E. O. Garland of Bartlett and F. W. Cobb of Conway and A. M. Stahl of Berlin, all prominent business men of those places. It is stated that the territory transferred may form the nucleus of the White Mountain region which, under a bill now pending in Congress, would be made into a public preserve. The consideration of the sale is understood to be between \$700,000 and \$800,000. Mount Webster is also included in the area which extends through part of Coos county and Carroll county. The land was bought by Mr. Osmond last July under a mortgage sale in connection with the litigation over the affairs of the Bartlett Lumber company.

HENS THAT CAN'T STRAY

FROM THEIR OWN FIRESIDE.

New Jersey Genius Again Triumphs Over Inherited Evils in the Biddy Family.

New York, May 8.—Charles Spencer of Newton, N. J., had been troubled by his neighbors' chickens scratching in his garden, so he set to work to "devise" a hen that could not scratch or wander away from its own yard.

After discouragement he claims to have produced a number of hens with one leg shorter than the other by the crossing of Plymouth Rock and bantams.

These hens, he asserts, have a right leg six inches long and a left leg but four inches. They are unable to wander any distance from the coop owing to their inability to take steps of the same length. Instead they walk around in a circle.

27,000 EMPLOYED ON CANAL.

Number at Work Last Month 9,000 More Than Ever Employed.

Panama, May 8.—The Panama canal company had 27,000 employed on its rolls during April. The number of men at work exceeds by 9,000 the greatest number the French company ever had in its employ.

Panama, May 8.—Owing to the expiration of its agreement with bankers here, the canal commission is receiving gold from the United States for the payment of employees.

SQUARE OIL DEAL

MEANS GREAT BOON.

The People Would Get a Large Part of \$45,000,000 an Independent Says.

Pittsburg, Pa., May 8.—"For 15 years we have been contending for a square deal, and from the President's message it looks as if our labor were to be rewarded at last," said James W. Lee of the Pure Oil company, one of the leading independent concerns in the country, yesterday, in discussing the message of President Roosevelt to Congress on the Standard Oil company.

"If we would get equalization of rates and other things we are entitled to
